

Banquet Menu

A large variety of seafood is served on many big dishes for entertaining guests of **NARUTO-TAI (sea bream)**.

In the tempestuous straits off Naruto, the famed Naruto-Tai (Naruto Sea Bream) can be found. The fish has a beautiful appearance due to its characteristically pink body. Naruto-Tai can be prepared in many ways, in raw form as sashimi, or cooked. This dish brings out the taste of the fish wonderfully.
